Dr. Ryan Freeland, FAAD

616-243-DERM
(616-243-3376)

1673 Gezon Parkway,
Wyoming, MI 49519

After 16 years of devoted service in the U.S. Air Force as a Special Operations Flight Surgeon, Assistant Professor at the Uniformed Services University, and dermatology faculty member at Walter Reed Military Medical Center, Dr. Ryan Freeland has returned home to West Michigan to care for you and your family!

As a decorated Air Force officer and combat veteran, he brings to Grand Rapids years of highest-quality medical training and experience from our nation's elite military hospitals. Dr. Freeland's patriotism and motivation to care for others has been galvanized in the leadership, humanitarian, and battlefield experiences he gathered during five assignments and 10 deployments in the service of our great nation.

Following his homecoming, Dr. Freeland now focuses all of his passionate, professional energies into caring for and educating patients in West Michigan—the place he has always considered his home.

Dr. Freeland envisions to build a regional center of excellence in dermatologic care. His practice, Wolverine Dermatology, seeks to joyfully deliver efficient, respectful, compassionate healthcare of the highest quality to all patients. They seek to serve the community with honesty and integrity, by respecting patients, valuing employees, and collaborating closely with fellow health care providers.

At his conveniently-located practice, you will find a state-of-the-art facility that celebrates our Michigan heritage as both the Great Lakes and Wolverine State. Wolverine Dermatology is in network with each of the three hospital networks—U of M Metro Health, Mercy Health, and Spectrum Health.

We look forward to the opportunity to care for you as a patient or work with you as a valued health care teammate!
